"I think that what's happening is that girls are enjoying playing. It's a lot more acceptable, and now we have a Women's Super League with hugely dedicated female role models - really committed players who people can see are dedicated and training as hard if not harder than any male players - that's all progressing the sport"

- Steph Houghton

Below is a small segment of the match report from Manchester City's Carabao Cup final win. We have made a few changes however! Can you spot and circle the 5 mistakes in the text...?

“City came into game on the high following our superb Champions League win at Real Madrid in midweek, but it was Villa who made the initial early running. Dean Smith’s men carved out the game first opening, Anwar El Ghazi rising at the back post to send a powerful header just over. However, thanks to our calm, possession-based approach, city quickly warmed to the task and Sergio Aguero was inches off target with a deft back header from Ilkay Gundogan’s eighth minute pinpoint cross. And that patience paid dividends on 20 minutes as that man Aguero – who else – made the allimportant breakthrough. Phil Foden was the architect, superbly heading back inside from Rodri’s teasing cross and master marksman Aguero needed no second invitation to bruy the ball home from close range.”

Read each scenario and decide what you would do in that situation. Writing in the spaces provided.

1. One of your players is on a low wage compared to the rest of the team. He is this season's top goal scorer and has become a true leader in the dressing room.
